

# Outdoor Transparent LED Screen

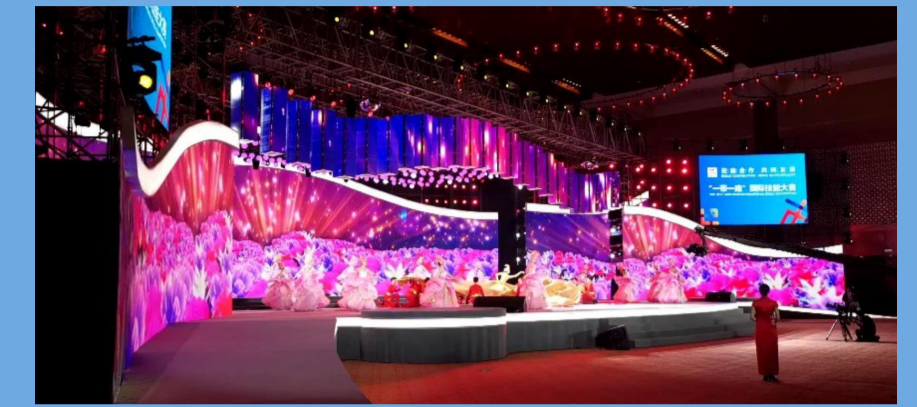

## PRODUCT FEATURES:

- High protection level, IP65 and waterproof for outdoor rental and outdoor fixed installation.
- High standard and high quality material makes product more stable and reliable:
  - Nationstar lamp
  - High refresh drive IC
  - 10 and 4 layers PCB
  - CE certified power supply
- Die-casting aluminum cabinet ensures precise and seamless panel connection.
- High brightness: 4500nit-6500nit, perfect for outdoor application.
- Same structure for rental and fixed installation, cost saving on accessory.
- Cabinet corner plate makes led and structure safe during transportation.
- Light weight: 15kg/sqm, easy to handle and operate during installation and disassembly.
- High transparency rate ups to 55%~72%.

## APPLICATION:

Glass video wall      Stage event      Road show      Concert

## CASES

## TECHNICAL SPECIFICATIONS:

Pixel pitch (mm)	3.9-7.8	5.2-10.4	10.4	15.6
Pixel configuration	SMD1921	SMD1921	SMD2727	SMD2727
Module size (mm)	250*250	250*250	250*250	250*250
Pixel Density (Pixels/m <sup>2</sup> )	32768	18432	9216	4096
Brightness (nit)	4500	4500	4500	6500
Cabinet size (mm)	1000*500	1000*500	1000*500	1000*500
Weight (kg/m <sup>2</sup> )	15	15	15	15
Cabinet material	Die-casting Aluminum			
Refresh rate (Hz)	1920-3840			
Input voltage (V)	110-240			
Input power frequency (Hz)	50/60			
Max input power (W/m <sup>2</sup> )	800			
Lifespan (H)	50000			
Storage temperature	-20°C - 60°C			
Warranty	2 Years
